## WELCOME MESSAGE FROM THE PRESIDENT OF INTERNATIONAL UNION OF PHLEBOLOGY

Dear Colleagues

As President of the International Union of Phlebology (IUP) and on behalf of the Executive Committee and General Council of the IUP, I take this opportunity to welcome you to the 2016 IUP Chapter Meeting here in Rome, Italy. The Congress President, Pr. Pier Luigi Antignani and his organizing committee has developed a tremendous scientific program as well as social events that will be of great interest to all participants.

You may be wondering the reason for the “extra” Chapter Meeting so soon after the Chapter Meeting in Seoul. It was the desire of the IUP General Council to circumvent what would have been at least an 8-year absence from the European roots of the IUP, since the next possibility would have been in 2019 or 2020. Having a 2016 Chapter Meeting in Europe will also enhance opportunities for other regions to host the next IUP Chapter Meeting.

The decision on the next Chapter Meeting will be taken here in Rome by the General Council, and I encourage member societies from all regions to support their own competitive bids for that meeting. Other changes and (I hope) improvements of the IUP will be forthcoming over the next few years, so please read the IUP Newsletter to keep up to date on what is happening and how you can be involved.

I also take this opportunity to thank our industrial partners for the steadfast support of the IUP. Without such support it is simply not possible to organize a meeting of high scientific quality. I look forward to even greater cooperation with you as together we seek to advance the research and education necessary to bring improved understanding and care to our patient suffering from disorders and diseases of the venous and lymphatic system.

I hope you will enjoy your stay in Rome – the Eternal City – as we all use this European Chapter meeting to improve knowledge and exchange ideas with colleagues from around the world in a friendly and stimulating atmosphere.

My very best regards to all,

Nick Morrison, MD  
President, International Union of Phlebology

## WELCOME MESSAGE FROM THE PRESIDENT OF ITALIAN COLLEGE OF PHLEBOLOGY

Dear Colleagues,

as President of the Italian College of Phlebology - CIF and on behalf of the CIF Executive Board it gives me great pleasure to welcome you to the UIP Chapter Meeting Rome 2016. I hope you enjoy the Meeting and that you take full advantage of the scientific programme and of your stay in Rome. In 2016 The Italian College of Phlebology celebrates 25 year since its foundation and UIP membership. We are even more honoured to organize the UIP Chapter Meeting and to welcome the UIP President, the Executive Board and many Phlebologists from Europe and around the world in this important anniversary for us. The management of the diseases of the venous system has evolved very rapidly during the past 25 years and the 17th April 2014 the UEMS (European Union of Medical Specialists) has officially accepted a Multidisciplinary Joint Committee in Phlebology - MJCP. UEMS with a current membership from 37 countries, it is the representative organisation of the National Medical Associations and of Medical Specialists in the European Union and its associated countries. The Kick-off meeting MJC in Phlebology UEMS was held on April 10, 2015 in Brussels. This was the first step to official recognition of Phlebology in Europe and the UIP Chapter Meeting in Rome will be a great occasion to develop the "new" Phlebology in its scientific, clinical and organizational aspects. I hope you will all find something of interest. If during your stay in Rome we can do anything to make the Meeting more enjoyable for you, we will be delighted to do so. Once again, it is a great pleasure to welcome you to Rome to yet another very successful UIP Meeting.

Sincerely yours

Fabrizio Mariani  
President of the Italian College of Phlebology

## WELCOME MESSAGE FROM THE PRESIDENT OF CONGRESS

Dear Sirs,

It is a great pleasure for me to welcome all to Rome 2016 – UIP chapter meeting.

Rome, one of the most beautiful cities in the world, has become a very attractive destination for vascular specialists and it has been selected several times in the past as a meeting place for their gatherings.

The scientific program will focus on the major advances in the field of Phlebology that has now achieved its cultural dignity, requiring a continuous education and update. The more and more widespread use of non-invasive diagnostic procedures and treatment nowadays represents the new frontiers in the management of venous and lymphatic diseases.

In this perspective, we invite you to contribute to the content of the scientific program and the success of the Meeting by supporting our project.

Welcome in Rome !

Pier Luigi Antignani, MD, PhD  
President, Rome 2016 – UIP chapter meeting
